(c) Accreditation Report for SALTS Project

1. In accordance with the provisions of references (a) and (b), and based upon the information provided in reference (c), I accredit the Standard Automated Logistics Toolset System (SALTS) Project. This accreditation is my formal declaration that appropriate AIS security safeguards have been properly implemented and tested, and that SALTS has achieved a satisfactory level of operational security.
2. This accreditation is valid for three years from the date of this letter unless there is a change affecting the AIS security posture of the SALTS Project. Any significant change in configuration, mode of operation, classes of data, or other modifications must be evaluated to determine its impact on the accredited status of SALTS. Appropriate action will be taken to maintain a level of security consistent with the requirements for the accreditation.
3. A copy of this accreditation letter with support documentation will be retained as a permanent record.
